Corrosive Chemical Storage Cabinet LX1051ASC

Email: info@labdex.com **website:** www.labdex.com

Description

Corrosive Chemical Storage Cabinet LX1051ASC is designed to provide safe, secure, and compliant storage for acids, bases, and other corrosive substances. Constructed from high-quality, chemical-resistant materials, the cabinet protects against corrosion, leaks, and chemical damage, ensuring long-term durability and safety. It helps to maintain a safe working environment while meeting applicable safety and storage guidelines.

Specifications

Volume	12 Gal/45 L
Configuration	Single door/Manual, one shelf
External dimension (W x D x H)	590 x 460 x 890 mm
Net weight	60 Kg
Packing dimension (W x D x H)	690 x 560 x 1040 mm
Gross weight	80 Kg

Features

- Gas-pressure release panels on top and back
- Epoxy resin coating for corrosion resistance
- Double-layer steel with 38 mm insulation
- Three-point or dual-lock safety system
- Leak-proof sill with reinforced hinges
- Grounding connector for static control

Applications

- It is suitable for industrial and manufacturing facilities, research institutions and academic laboratories, and medical and pharmaceutical labs that handle

corrosive substances for testing and formulation.

71-75 Shelton Street Covent Garden, London WC2H 9JQ UK.
